I'm adding a lot of detail. Stephanie drew a map that should help as well. I'll forward you those things when they are ready. My supervisor sent out an email this morning informing Mr. Gill that he has until the end of March to clean up the site, and that we are recommending penalty and also that we will be contacting the EPA. Mr. Deshmane told us Monday that they cannot remove the tall oil until the summer, so a quick cleanup is unlikely.

Hi Brooks – I just tried sending you my draft photolog, which is huge. Can you let me know when you receive it?
